

## Productivity & Cost Savings

Most seeders on the market use technology that is 100 years old. The Jang Clean Seeder stands out from the rest because it uses new technology that singulates the seeds. Thus eliminating wasted seeds and thinning. With the high cost of seeds, you'll be sure to find this a welcome feature!

## Quick Change Seed Rollers

Constructed with special anti abrasion plastic rollers to prevent static electricity. These seed rollers are designed to plant very small seeds up to larger coated seeds.

## Feature

Adjustable Handle

on the JP-1 Clean Seeder

## Options

Double Disc Opener

Hopper Extension —

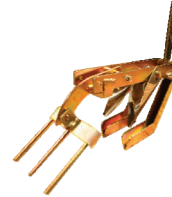

Triples Hopper Capacity

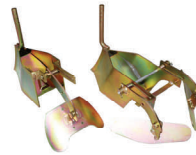

Double shoe—

One Row,

Two Lines of Seed

Spreading Shoes

Also Available: 3 Pt. Hitch and Pull Type Hitch for

# Jang Clean Seeders

With the innovative engineering, yet simple design and ease of application, change and clean-up translates to the Height of Excellence in quality and technology.

Add "Affordable" to the mix and you have the best seeder for the price on the market!

"See Through"

## Hopper

The "clean out" is quick and simple as the Quick Release Hopper makes it easy to empty and change rollers.

Plant as little or as much as you want. No longer will you need a large amount of seeds in the hopper for the unit to function. Small amounts of seeds work just as efficiently as large amounts of seeds in the hopper.

## Models

### Push Style Seeders

**JP-1**  
1-Row Hand Push Style Seeder  
Weighs 22 lbs.

**JP-3**  
3-Row Hand Push Style Seeder
